SUMMARY

Pursuing B.Tech in CSE (AIML) at VVIT with a CGPA of 8.5 and good knowledge of programming, data structures, and basic machine learning. Worked on projects like Credit Card Fraud Detection and an AI-based Finance Manager. Skilled in Python, SQL, and web technologies. Interested in learning new technologies and improving problem-solving skills.

EDUCATION

Vasireddy Venkatadri Institute of Technology

2023-27

Bachelor of Technology of Computer Science and Engineering(AIML)(8.5 CGPA)

Sri Chaitanya Junior College

2021-23

Intermediate in MPC(97%)

Sri Chaitanya School

2020-21

Secondary School of Education(100%)

SKILLS

- Technical Skills** – Machine Learning, Data Analysis, Problem Solving
- Programming Languages** – Python, Java, SQL
- Web Technologies** – HTML, CSS, JavaScript, Node.js
- Tools & Technologies** – Git, Supabase, TensorFlow (basic), Google Colab
- Core Concepts** – Data Structures, Algorithms, DBMS basics

PROJECTS

AI-Powered Energy Optimization and Savings App

Developed a Flutter-based AI application to predict energy consumption and provide personalized recommendations for cost savings and efficient usage.

Credit Card Fraud Detection System

Built a Logistic Regression model to detect fraudulent transactions from imbalanced data using precision, recall, and F1-score for evaluation.

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations
- AWS Cloud Practitioner Essentials
- Microsoft Azure Fundamentals
- Data Analytics Job Simulation – Deloitte
- Introduction to Modern AI – Cisco
- Flutter Development Bootcamp

ACHIEVEMENTS

- Secured 1st place in Ideathon organized by Anveshana.org for innovative idea presentation and problem-solving.
- Awarded Winner – Innovation Day 2024 (VVIT) for exceptional performance in Innovation Through Imagination.
